## MUST-HAVE! Cutout Dresses!

**P**EEKABOO! **KERRY WASHINGTON**, **Emma Roberts**, **Keri Hilson** and others are walking the red carpet in deliberately slashed, skin-baring gowns. "The slits add a sexy update to a simple dress and can especially flatter a slim waistline," Penny Lovell, who styles **Ginnifer Goodwin**, tells *Us*. If you don't feel confident flaunting your midriff, "try cutouts in other places, like the shoulders and arms. Even shoes with cutouts look great," Lovell suggests. Another essential trick? Go long! "Opt for floor-length numbers to avoid showing off too much skin."

Hilson wore Versace in NYC.
